

Digital Detox Day

We want you to have an enjoyable day off the screens.

We've created a list of activities you can do that link to our topic and learning completed so far this half term.

Maths

We have looked at equal groups and arrays over the last 2 weeks. What we would like you to do is make an array that represents the following multiplication calculations:

$$2 \times 2$$

$$3 \times 3$$

$$4 \times 2$$

$$4 \times 3$$

$$3 \times 4$$

You can use marbles, pasta, books, DVDs, stones, sticks*...whatever you can find. You can also represent other calculations as an extra challenge.

*This would be a perfect opportunity to go for a walk and find some things to make arrays with.

English

Can you act out your version of 'The Three Billy Goats Gruff' that you wrote yesterday? Be careful who you choose to be the troll though – you don't want to upset anyone!

DT

Today is the day we want you to build your bridge. Experiment with different materials. Cardboard, plastic, lolly sticks – whatever you can find. Which material worked best for carrying the toy car? Could you try something heavier?

Could you do some baking or cooking? It could be linked to what Kings and Queens would have eaten or just a cake or food of your choice.

Enjoy spending time with family, learn a new skill, get some exercise and have a brilliant day away from your screens!
