

Extension – Tricky

1. Identify the temperatures marked on the thermometers.

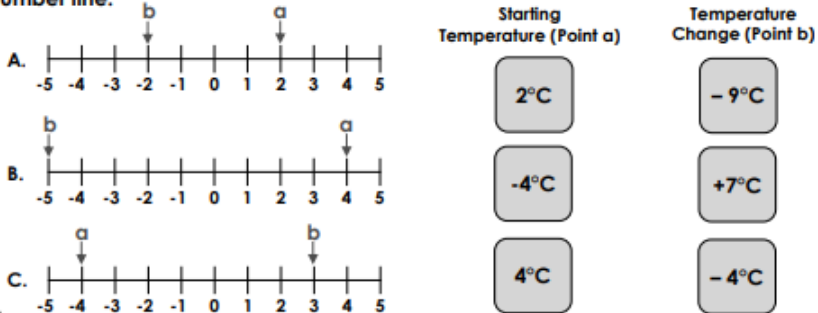

Order the temperatures in ascending order.

VF  
HW/Ext

2. Match the starting temperature to the temperature change and its corresponding number line.

VF  
HW/Ext

3. Hafsa is working out how much money she has left in her bank at the end of January, February and March. Mark her balance on the number line for each month.

A. In January, her balance is an odd amount less than -£5

B. In February, her balance is £6 more than in March.

C. In March, her balance is £4 more than in January.

Is there more than one possible answer?
